Ranking approach

Roles were ranked by direct fit to account/customer-success/client-service work, Basel proximity, reputable employer/source, language fit, clear corporate career path, and likely compensation. Roles requiring German above B2 are flagged. Where compensation was absent, "Not listed" is used; third-party estimates are not treated as employer-stated compensation.

Document-generation status

Tailored CV and cover-letter PDFs/DOCX files were not generated for the top roles because Alexandra's CV is not present in `cv_input/` on this branch or the checked remote refs. Generating tailored materials without a CV would risk inventing qualifications, language ability, titles, or results, contrary to the workflow quality rules.

Next run recommendations

- Add Alexandra's CV as a PDF or DOCX under `cv_input/` before the next run.
- If known, add verified language levels, especially German/Swiss German, English, French, and Romanian, because most Basel corporate roles require German above B2.
- Re-check Sanacare, Netcloud, IQVIA, Albedis, Bank J. Safra Sarasin, and isolutions first; they were the strongest verified Basel-area postings this week.
