Tailored application documents not generated - 2026-11-11

No tailored CV or cover-letter documents were generated for this weekly run.

Reason: `cv_input/` was checked on the working branch and against `origin/main`; it contains only `.gitkeep`. No Alexandra CV, resume, certificate, or supporting profile document was available in the repository.

The workflow requires tailored documents to use only factual experience, skills, and qualifications from Alexandra's CV. Without that CV, generating role-specific CVs or cover letters would risk inventing qualifications, language ability, education, employment history, achievements, or industry experience.

Recommended next step: add Alexandra's current CV to `cv_input/` as a PDF or DOCX before the next weekly run. Once the CV is present, generate tailored CV and cover-letter documents for the top 3-5 roles from that run.
