Alexandra Dedu - Weekly Swiss Job Search Report

Run date: 2026-09-30
Search focus: Basel, Basel-Stadt, Allschwil, Liestal, nearby commuting distance, plus strong Swiss hybrid/remote roles.
Status: No applications sent, no accounts created, and no employers contacted.

1. CV and source-data status

cv_input/ contains only .gitkeep; no Alexandra CV PDF/DOCX was available in this repository on this branch at run time.

Because the CV is unavailable, this report uses only the factual candidate context provided in the workflow prompt:

- iGaming background
- account management
- customer-facing operations
- sales
- relationship management
- coordination

No language proficiency, education, exact years of experience, certifications, titles, metrics, or sector-specific credentials were inferred. Tailored CV and cover-letter documents were not generated, because doing so would require unverified candidate facts.

2. Search methodology

Sources checked included official employer career pages, Workday, Ashby, Greenhouse, Lever, SmartRecruiters, jobs.ch, jobup.ch, Jobscout24, and Swiss aggregator results used only for discovery. Preference was given to official employer-hosted postings or reputable job boards with enough detail to verify the role is open.

Quality filters applied:

- Removed expired or no-longer-listed roles after checking official career pages.
- Removed internships, graduate-only roles, commission-only roles, and roles clearly below the requested level.
- Removed roles requiring specialist qualifications not evidenced by the available candidate facts.
- Flagged German requirements above B2 or likely above B2.
- Avoided tailoring documents because the CV is missing.

5. Excluded or deprioritized roles

Role / employer | Source checked | Reason excluded or deprioritized

Account Manager, Netcloud, Basel | Official Netcloud careers page and aggregator result | Aggregators showed an Account Manager Basel posting, but Netcloud's official jobs page showed no open Sales roles and no matching Account Manager role. Treated as expired/no longer open.

Key Account Manager Hematology & Oncology Switzerland, Recordati | Aggregator result | Basel location and account title looked attractive, but the role is senior pharmaceutical/oncology KAM and likely requires sector expertise not evidenced by available candidate facts.

Account Manager Spitalkunden, Ambu | Aggregators | Hospital medical-device sales role with medical-product demonstrations and likely German/French/Italian requirements; too specialist without CV evidence.

Senior Customer Success Manager, DECTRIS | jobs.ch / Jobscout24 | Requires scientific-software fluency, code/data workflow comfort, and ideally PhD or scientific-domain support experience. Not a direct match from known facts.

Technical Account Manager, Benchling | Ashby search result | Requires life-sciences customer/product expertise and scientific acumen; too specialist without CV evidence.

Customer Success Manager, Jua | Ashby | Strong CSM title, but requires Python proficiency, data/API work, weather-data interpretation, and energy trading market familiarity. Excluded unless CV confirms technical/data background.

(Senior) Relationship Manager Private Banking, Sygnum | Official Salesforce career page | Regulated fintech/crypto bank is interesting, but role requires Swiss financial-institution private banking experience, active industry network, KYC/AML onboarding, and French/English.

Client Advisor / Senior Client Advisor, Nexova | Official careers page | Basel/remote is attractive, but roles are fiduciary/accounting-client advisory positions and likely require fiduciary/accounting skills not evidenced by available facts.

Appsamurai Customer Success Manager EMEA roles | Lever search result | Interesting e-commerce/fintech/betting SaaS overlap, but listed locations/language requirements were not Switzerland-aligned and included Hebrew/Polish requirements.

Graduate/early-career Sales & Business Development Manager, Netlight | Lever search result | Graduate/young-professional track, likely below Alexandra's target level.

6. Recommended next steps

1. Add Alexandra's CV to cv_input/ as PDF or DOCX before the next run.
2. Confirm Alexandra's German, English, French, and any other language levels; most strong Swiss roles require fluent or negotiation-level German.
3. If the CV confirms strong German and field-sales comfort, prioritize Solenis/Diversey and Ingram Micro.
4. If the CV confirms SaaS/customer-success experience, prioritize Namespace, enmacc/Fidectus, Frontify, RepRisk, and ElevenLabs.
5. If the CV confirms healthcare IT, scientific software, payments, banking, or fiduciary/accounting exposure, revisit the excluded specialist roles.
