

Weekly job-search report for Alexandra Dedu

Run date: 2026-07-12

Target geography: Basel, Basel-Stadt, Allschwil, Liestal, nearby commuting distance, and selected hybrid/remote Switzerland roles

Target role families: account management, key account management, customer success, client services, customer operations, sales operations, partnerships, onboarding, relationship management

Executive summary

This run could not be completed as a full candidate-fit workflow because Alexandra's CV was not present in the repository. The repository guidance says CV files should be stored in `cv\_input/`, but the folder contains only `.gitkeep` on the current branch, `origin/main`, and `origin/develop`.

To avoid inventing qualifications, language ability, titles, sales results, or industry experience:

- No CV-derived profile was extracted.
- No tailored CV or cover-letter documents were generated.
- The roles below are a preliminary, source-backed watchlist based on the requested target role families and sectors only.
- Each role should be re-screened against Alexandra's actual CV before application material is prepared.

Candidate-source status

| Item | Status |

|--|--|

| CV read from `cv\_input/` | Not possible; no PDF/DOCX CV files were present |

| CV-derived experience and qualifications used | No |

| CV-derived language levels used | No |

| Tailored CV/cover-letter generated | No; blocked by missing CV |

| Accounts created / applications submitted / employers contacted | No |

Ranked preliminary watchlist

These roles are not presented as verified strong matches because the CV could not be read. Ranking is based on location, role-family alignment, sector quality, source quality, and whether the listing appears to support a credible corporate career path.

Next steps before the next weekly run

1. Add Alexandra's current CV as a PDF or DOCX file under `cv\_input`.
2. Re-run the workflow so the role ranking, language fit, and tailored documents can be based on CV facts.
3. Confirm Alexandra's actual language levels, especially German and French, because many Basel and Zurich roles require German fluency or native German.
4. Revisit the top local roles first: Laverana, TA Triumph-Adler, faigle, dbi services, and Bechtle.

Compliance with user constraints

- No applications were submitted.
- No accounts were created.
- No employers, recruiters, or job boards were contacted.
- Earlier output folders were not overwritten.
- Tailored application documents were not generated because doing so without the CV would risk fabricating candidate-specific claims.
