Alexandra Dedu - Weekly Swiss Corporate Job Search

Run date: 2026-10-07
Search focus: Basel, Basel-Stadt, Allschwil, Liestal, Basel-Landschaft, reasonable commuting distance, plus unusually strong Switzerland-based hybrid/ remote roles.
Workflow status: Completed with CV limitation.

CV availability and candidate facts used

`cv_input/ ` currently contains only `.gitkeep`; no PDF, DOCX, or other CV source file is available on the working branch or fetched remote refs. Because the CV could not be read, this report uses only the factual candidate context provided in the workflow prompt:

- Experience areas: iGaming, account management, customer-facing operations, sales, relationship management, and coordination.
- Target transferable strengths: account management, stakeholder management, client service, customer operations, sales coordination, onboarding/ support, and relationship management.
- No qualifications, language levels, sales results, certifications, banking knowledge, CRM tools, or industry-specific experience beyond the above were assumed.

Impact: tailored CV and cover-letter documents were not generated. Generating candidate-specific documents without a CV would risk inventing qualifications or language ability.

Search methodology

- Prioritised reputable sources: employer-hosted Greenhouse/ Workable pages and jobs.ch postings with live detail pages.
- Included German and English postings.
- Excluded stale listings, postings whose detail pages returned 404/ expired/ category redirects, internships/ apprenticeships, roles clearly below target level, and roles requiring niche credentials that are not supported by available candidate facts.
- Flagged roles requiring German above B2 or additional languages above B2.

Recommended next steps for Alexandra

1. Add Alexandra's current CV as PDF or DOCX under `cv_input/ ` before the next weekly run.
2. Confirm language levels, especially German, Swiss German, French, Italian, and English, because most high-quality Basel corporate roles require German above B2.
3. Confirm whether she has any SaaS, CRM, Salesforce, fintech/ payments, banking, insurance, FMCG, or healthcare-specific experience; this will materially change the ranking.
4. If the CV confirms strong German and account-management depth, prioritise Netcloud, Dr. Beckmann, Salesforce, Bottomline, and Allianz/ Bank Cler depending on sector fit.
